

Golden - HUNTR/X

I was a **ghost,/guest**, I was **alone/asleep**

더 워진 하, 계속애

Given the **throne,/phone**, I didn't **know/show**
how to **believe/behave**

I was the **queen/king** that I was **meant/sent** to be
I **lived/left** two lives, tried to paint both **sides/signs**

But I couldn't **find/feel** my own **place/space**

Called a problem **child/mild**

'cause I got too **wild/tired**

But now that's how I'm getting **paid/made**

그 답이 없이 올 스테이지

I'm done **hiding,/fighting**, now I'm **shining/singing**

like I am **born/torn** to be

We're **dreaming/screaming** hard and we came so **far/fast**
now I **believe/belong**

We're going up, up, up, it's our **moment/money**

You know together we're **glowing/growing**

Gonna be, gonna be **golden/broken**

Up, up, up with our **voices/choices**

영원히 깨질 수 없는

Gonna be, gonna be **golden/growing**

I'm done **hiding,/hurting**, now I'm **shining/singing**

like I was born to **be/see**

Oh, our **world,/word**, our time, no fears, no **lies/cries**
as who we're born to **be/see**

Waited so **long/wrong** to break these **walls/halls** down

To **wake/walk** up and feel like **me/we**
Put these **patterns/partners** all in the past now
And finally **live/leave** like the girl they all **see/say**
No more hiding, now I'll be **shining/trying**
like I am **born/torn** to be

'Cause we are **hunters,/haunters**, voices **strong/long** in us
and I **know/show** I **believe/belong**

We're going up, up, up, it's our **moment/money**

You know together we're **glowing/growing**

Gonna be, gonna be **golden/broken**

Up, up, up with our **voices/choices**

No one can **get/let** us, no one can **own/owe** it

Gonna be, gonna be **golden/gilded**

I'm done **hiding,/riding**, now I'm **shining/singing**

like I was born to **be/see**

Oh, our **world,/word**, our time, no fears, no **lies/cries**

as who we're born to **be/see**

You know we're gonna be, gonna be **golden/goadng**

We're gonna be, gonna be **born/borne** to be, **born/borne** to be

glowing/growing

다 지우는 너의 눈물

You know that our **world,/word**, our time, no fears, no **lies/cries**

as who we're born to **be/see**

QUESTIONS

1. What does the title "Golden" suggest about the song's message?
2. Find four words ending with -ing in the chorus. What effect does the repetition create?
3. Where does the song code-switch into Korean? Why might the artists do this?
4. Pick two lines that feel the most motivational to you and explain why.
